

## **Gary S. Dwyer - *Senior Research Scientist***

Division of Earth and Ocean Sciences, Nicholas School of the Environment  
 Duke University, Campus Box 90328, Durham, NC 27708  
 gary.dwyer@duke.edu

### **Education**

Ph.D. Geology, Duke University, Durham, NC, 1996  
 M.S. Geology, Duke University, Durham, NC, 1991  
 B.S. Geology, University of Maryland, College Park, MD, 1987  
 A.A. Montgomery College, Rockville, MD, 1985

### **Appointments**

2010-Present ***Senior Research Scientist***, Division of Earth and Ocean Sciences, Nicholas School of the Environment, Duke University.  
 1997-2010 ***Research Scientist***, Division of Earth and Ocean Sciences, Nicholas School of the Environment, Duke University.  
 1996-1997 ***Postdoctoral Scientist***, Department of Geology, Duke University.  
 1990-1996 ***Research Assistant***, Department of Geology, Duke University.  
 1988/1990 ***Geologist***, ARCO Production Research Center, Plano, TX (summers).  
 1987-1990 ***Teaching Assistant***, Department of Geology, Duke University.  
 1986-1987 ***Undergraduate Res. Asst.***, Dept. of Geology, University of Maryland.

### **Courses Taught**

EOS/ENV226S - Field Methods in Earth and Environmental Science  
 EOS410S - Senior Capstone Experience - Ireland: Geology, Climate, Environment  
 EOS410S - Senior Capstone Experience - Florida-Bahamas: Geology, Climate, Environment  
 EOS404S - Geology of Tropical Marine Environments  
 EOS393 - Research Independent Study  
 EOS187S - Marine Geology of South Florida  
 EOS113/213 - Modern and Ancient Oceanic Environments

### **Analytical Facilities Management (Operation, Training, Maintenance and Repairs)**

2008 - Present Thermal Ionization Mass Spectrometry Lab (TI-MS)  
 2004 - Present Inductively Coupled Plasma Mass Spectrometry Lab (ICP-MS)  
 2004 - Present Optical Emission Spectrometry Lab (DCP-OES)  
 2004 - Present General and Clean Geochemistry Labs  
 2006 - 2008 Gamma-Ray Spectrometry Lab

### **Grant and Award History (Award Amounts Reflect Duke Portion)**

\$150,000 - *US Geological Survey*, Arctic Ocean ostracode magnesium/calcium geochemical analyses and paleotemperature reconstruction, 2014-2019  
 \$188,000 - *US Geological Survey*, Late Quaternary paleoceanography of the Arctic Ocean, 2009-2013.  
 \$470,000 - *NSF – Paleo Perspectives on Climate Change*, Collaborative research: Reconstruction of a continuous, high-resolution record of late Quaternary paleohydrology and paleoclimate of the Amazon basin, (Co-PI with Paul A. Baker, and David Hollander-Univ. So. Florida), 2008-2012.  
 \$104,000 - NSF Earth Sciences, Environmental Effects of the Coal Ash Spill and Remediation at Kingston Tennessee (Co-PI with Avner Vengosh, Paul A. Baker, and Helen Hsu-Kim) 2009-2010

- \$44,350 - *US Geological Survey*, (a) Pliocene sea-surface temperature records; (b) Temperature record for the last 2000 years, eastern North America, 2007-2009.
- \$480,831 - *NSF – Atmospheric Sciences*, Collaborative Research: Mid-Pliocene Global Warming: Analysis of 3-D Digital Data Sets and Coupled Ocean-Atmosphere Modeling Studies, (with Mark Chandler, Columbia Univ/NASA-GISS), 2003-2009.
- \$322,000 - *NSF - Ocean Sciences*, Development of Environmental Proxies for Coastal Environments, (Co-PI with Bruce Corliss), 2003-2007.
- \$51,181 - *NSF – Earth System History*, Collaborative Research: High Northern Latitude Amplifiers of Centennial to Millennial Climate Forcing During the Holocene, (with Gerard Bond, LDEO-Columbia University), 2003-2006.
- \$36,800 - *US Geological Survey*, Ecosystem History of Biscayne Bay, Florida, based on microfossil shell chemistry, 2003-2004.
- \$73,792 - *NSF - Office of Polar Programs*, Ostracode Mg/Ca paleothermometry in the Arctic Ocean: A Calibration Study, 2002-2004.
- \$124,500 - *US Geological Survey - Ecosystem History Program*, Salinity history of the Florida Bay-Everglades ecosystem over the last 200 years using ostracode shell chemistry 1997-2003.
- \$97,667 - *NSF - Office of Polar Programs*, Collaborative Research: Paleoceanographic Records of Western Arctic Shelf-Basin Interactions (9 Co-PI's at 6 institutions), 1999-2001.
- \$30,350 - *US Geological Survey - Climate Program*, The effects of temperature and salinity on the shell chemistry of estuarine ostracodes, 1998-2000.
- \$49,900 - *NSF - Ocean Sciences Program*, SGER Project: Calibration of a Deep-sea Ostracode Paleothermometer (w/P.A. Baker and T.M. Cronin), 1997-1998.
- \$34,223 - *US Geological Survey - Global Change and Climate History Program*, Deep-Ocean Temperature and Climate Change Over the Last 200,000 Years (w/P.A. Baker), 1996-1997.
- \$64,847 - *NSF - Arctic System Science, Ocean-Atmosphere-Ice Interactions*, Geochemical Analysis of Ostracodes from the Arctic Ocean: Last Glacial Maximum to Present (w/P.A. Baker and T.M. Cronin, USGS), 1994-1996.
- \$19,981 - *US Geological Survey - Global Change Program*, Development and Application of a New Paleoceanographic Tool: The Shell Chemistry of Marine Ostracodes (w/P.A. Baker), 1993-1994.
- \$50,000 - *ARCO Oil and Gas Company*, The Origin of Ordovician dolostones, Black Warrior Basin, Mississippi Subsurface (w/R.D. Perkins), 1990-1993.

### **Field and Research Cruise Experience**

- 2010 Piston, box, and multi-coring, including extra-long (30m) piston cores, Amazon Fan slope system to recover high-resolution South American climate history, *R/V Knorr*.
- 1997-Present: Modern/living estuarine calcareous microfaunal sampling, water sampling, temperature/salinity measurements, Florida and Biscayne Bays, FL; Chesapeake Bay, VA; Bogue, Core, Pamlico Sounds, Newport River Estuary, NC. (numerous trips, either solo or in collaboration with USGS or Duke colleagues).
- 1999 Box coring (Multicorer), giant gravity coring, CTD-hydrocasts, 3.5 kHz surveying, outer shelf and upper slope off S. Carolina/Georgia, *R/V Cape Hatteras* (G. Dwyer, Chief Scientist).
- 1998 Box coring (Multicorer), western North Atlantic, *R/V Cape Hatteras* (L. Keigwin, WHOI, Chief Scientist).
- 1997 Gravity coring, Chesapeake Bay, MD, *R/V Discovery* (T. Cronin, USGS, Chief Scientist).
- 1997 Piston coring (modified Livingstone corer), Pamlico River (S. Cooper, Duke, Chief Scientist).
- 1997 Grab sampling, hand-held push coring, water sampling, Core Sound, North Carolina (G.Dwyer, Chief Scientist).
- 1994 Box coring on outer shelf and slope off South Carolina for live foraminifers and ostracodes, *R/V Cape Hatteras* (B. Corliss, Duke, Chief Scientist)
- 1992 Box and piston coring, northwest Nicaraguan Rise, *R/V Cape Hatteras* (P. Baker/S. Cross, Duke, Co-Chiefs)

- 1989 Ground water/tidal monitoring, West Caicos Island, British West Indies (G. Dwyer/D. Rosoff, Duke, Co-Chiefs).
- 1988 Piston and rock coring, and collection of sediment pore waters for geochemical analysis, West Caicos Island, British West Indies (R. Perkins/G. Dwyer/D. Rosoff, Duke, Co-Chiefs)
- 1986-1987 Detailed structural mapping and collection of oriented samples for strain analysis, Pinto, Maryland (G. Dwyer, Univ. of MD, senior thesis).

### **Academic Honors**

**Duke University** - AMOCO Foundation Fellowship

**University of Maryland** -Valedictorian - College of Computer, Math, and Physical Sciences; Magna Cum Laude; Geology Academic Award; Senior Research Award, Geology; Certificate of Scholarship - Outstanding Academic Achievement; Geology; Field Camp Scholarship; Dean's List

**Montgomery College** - Dean's List

### **Graduate Advisor**

Ronald D. Perkins, Duke University.

### **Organizations/Affiliations**

American Geophysical Union, Geological Society of America, Geochemical Society

### **Service**

Editorial Board: *Global and Planetary Change*

Reviewer: *Geology; Science; Marine Geology; Palaeogeography, Palaeoclimatology, Palaeoecology; Geochimica et Cosmochimica Acta, Sedimentology, Global and Planetary Change*

Proposal Reviewer: NSF - Earth Sciences Program, Ocean Sciences Program, Paleoclimate Program, Office of Polar Programs; American Chemical Society-Petroleum Research Fund

Proposal Review Panelist: NSF - Earth System History Program

AGU Program Committee (Ocean Sciences) – 1999 Spring Meeting, Boston, MA.

Laboratory Committee – Nicholas School Building Renovations

AGU Session Chair, Paleooceanography and Paleoclimatology Gen. Contributions (2002, 2006)

Udall Scholarship Committee (2017/2018)

**General Statement on Synergistic Activities and Contribution to Education:** As a research scientist in the Division of Earth and Ocean Sciences (EOS), my primary pursuit is original research in the fields of paleoclimatology, paleoceanography, and environmental change. In addition, and as part of this effort, I also play an important role in teaching, training, advising, and supervising undergraduate and graduate students and laboratory technicians as manager of operations and training in the ICP-MS, DCP-OES, and TIMS laboratories and supporting geochemistry labs within EOS. Over the last twenty years I have advised, co-advised, supervised or trained over fifty students, interns, and/or technicians from institutions including Duke University, University of North Carolina-Chapel Hill, East Carolina University, University of Massachusetts-Amherst, University of Wales-Bangor, Penn State and the US Geological Survey, among others. In collaboration with Paul Baker, Bruce Corliss (URI), Emily Klein, Avner Vengosh, and others at Duke Earth and Ocean Sciences, I have maintained and fostered an open lab, welcoming students, faculty, and scientists from Duke University and other institutions for collaborative projects, training, and use of our analytical laboratories and instrumentation in the pursuit of education, research, and service.
